## LED 显示屏

LED Display

## 产品介绍 Product Introduction

室外全彩 LED 显示屏画面清晰、色彩均匀、立体层次感强、可任意播放图片、文字、广播、电视、录像、VCD、DVD 及各种三维动画。同时具有丰富的播放方式，可显示滚动信息、通知、标语口号，可灵活输入及输出多种信息。字体、字号任意选择，并可设置播放速度。

实现多条消息同时播出或与动画、图像同时播出。

室外全彩 LED 显示屏采用超级灰度控制技术，模块化结构设计和超大规模集成电路设计技术，极大地提高了显示屏系统的稳定性、可靠性及播放效果。显示控制系统采用最先进的超大规模集成电路控制芯片，在线编程功能灵活，可完成各类复杂地数字逻辑控制和非线性计数功能。

The full colour LED outdoor display has features of clear picture, colour uniformity, strong three-dimensional effects, arbitrarily playing pictures, characters, broadcast, TV, video, VCD, DVD and all kinds of animation. At the same time, it has many kinds of play modes and can display rolling titles, notifications, slogans. Besides, a variety of information can be input and output flexibly. Letterform and word size are arbitrary adjustable and the playback speed can also be set up. Multi-news or multi-news with animation, pictures can be simultaneously broadcasted.

The full colour LED outdoor display adopts super gamma control technology, modularized structure design and ultra-large integrated circuit design technology, which tremendously improves the stability, reliability and play effect of the whole display system. Display control system uses advance ultra-large integrated circuit control chip which can achieve flexible on-line program function and all kinds of complicated digital logic control and nonlinear tally function.

## 产品特点 Product Features:

高频率扫描，每种颜色 65536 个灰度级调制，图像细腻

采用逐点校正技术

系统操作方便，无需任何专业技能，便能完成内容播放

显示功能：极速画面、视频、文字、图标等。

High frequency scanning, 65536 grayscale modulation for each color, excellent image

Use pointwise correction technique

Waterproof, dustproof, stable performance

Convenient control system, easy operation without any special skills

Display functions: fast speed image, video, character, diagrams, etc.
